

# Chronic Wasting Disease (CWD) Special Regulations

This section explains regulations that are specific to the DEZ and the HRZ.

## What's New: CWD Regulations for 2005:

- *CWD Zones* – The Chronic Wasting Disease zone boundaries have changed for the 2005 deer hunting seasons (see page 59). There are two CWD zones: the Herd Reduction Zone (HRZ) and the Disease Eradication Zone (DEZ).
- *Either-Sex and Earn-a-Buck Seasons* – Hunters in the CWD DEZ or HRZ may harvest a deer of either sex from Sept. 17 – Oct. 26 & Nov. 19 – Jan. 3\*, during the archery or firearm deer seasons. From Oct. 27 – Nov. 18, a hunter must first harvest an antlerless deer before they may harvest a buck, as Earn-a-Buck regulations are in effect (see page 53 for details).

**\*Note:** Landowners & hunters who are hunting under the authority of a **DEZ Landowner Permit** may continue to hunt from Jan. 4 – March 31 (see pages 56 & 57 for specific regulations and requirements).

- *Carcass Tags* – The Yellow Either-Sex and Orange Buck tags that were used in CWD zones in the previous seasons are being replaced. Please discard your old tags. This year we have simplified the CWD Deer Carcass Tag, which will be available at DNR Service Centers and certain license agents in and around the CWD zones free of charge at a rate of 4 tags per hunter per day. Also, the buck tag will be replaced by a buck authorization sticker which will be used to authorize a hunter to harvest a buck during the Earn-a-Buck portion of the CWD Seasons (see page 53 for more information).
- *White Deer* – Albino and white deer may be harvested and possessed in the DEZ. Upon harvest of a white or albino deer you must contact the DNR within 7 days of tagging the deer to obtain a Possession Authorization Receipt to retain possession of an albino or white deer.

## Licensing

Other than landowners and individuals hunting under the authority of a landowner permit in the Disease Eradication Zone (see pages 55-57 for details), all hunters in these zones are required to follow the license requirements listed on pages 4-7 of this pamphlet.

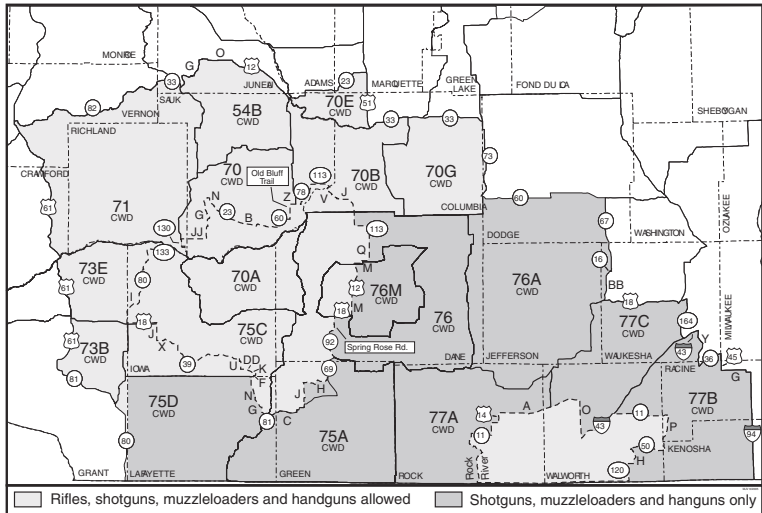

**The DNR will operate a toll-free CWD information line  
during regular business hours.**

**1-877-WISC-CWD  
(1-877-947-2293)**

## Firearm and Bow Restrictions in the CWD DEZ and HRZ

- A person may only use the weapon authorized by the type of license they hold and may only use the weapon type authorized for the hunts listed in the tables starting on page 60.
- It is unlawful to use rifles to hunt deer in the Dane, Dodge, Green, Lafayette, Jefferson, Walworth, Washington, Waukesha, Racine, Kenosha and Rock County portions of the Herd Reduction Zone.
- Rifles can be used to hunt deer in both Disease Eradication Zones, including the Dane, Green, Kenosha, Lafayette, Racine, Rock and Walworth County portions. (See map below.)

## CWD Zones Firearm Restrictions Map

## Deer Tagging in Chronic Wasting Disease (CWD) Zones

### Deer Tagging Instructions:

1. You must validate the deer carcass tag immediately upon killing and before field dressing or moving the deer.
2. Be sure you have selected the correct tag (see page 53) and validate by slitting the appropriate date, time and type of deer indicated on the tag.  
**Note:** An antlerless deer is any deer that does not have any antler of 3 or more inches in length.
3. Immediately **attach the validated tag to the deer's ear or antler.**
4. After the deer has been tagged, it must be registered at an appropriate registration station. Please see the section on registration (page 54).

### Additional Tagging Regulations:

- Any person killing a deer for another member of their group deer hunting party (see pages 14-15) must make sure that the person for whom the deer was killed attaches a validated carcass tag to the deer's ear or antler without delay and prior to field dressing or moving the deer.
- The carcass and registration tags must remain attached to the deer, but may be removed from the carcass at the time of butchering. The person who killed, tagged or obtained the deer shall retain all tags until the meat is consumed.

## Deer Tagging in Chronic Wasting Disease (CWD) Zones *continued*

**Note:** It is illegal to possess any untagged deer. Any buck killed after tagging an antlerless deer during the CWD EAB hunt (Oct. 27–Nov. 18), must also be tagged with a validated CWD Deer Carcass Tag as described below, or with one of the below mentioned valid antlerless tags before it may be transported in any manner.

### 2005 CWD Tag Descriptions:

**CWD Deer Carcass Tag.** This special tag, which is blue, is only valid in the deer management units or portions of deer management units included in the Disease Eradication and Herd Reduction Zones. *These tags:*

1. will be issued free of charge, 4 tags per day, per customer, at all DNR Service Centers and a limited number of license vendors in and near the CWD Zones.
2. can be used during any of the CWD hunts described in tables starting on page 60 (these tags are not weapon specific).

Note: Vehicle-killed deer may not be used to obtain buck authorization in a CWD unit.

**CWD buck authorization sticker.** Similar to the EAB stickers issued in 2004 in non-CWD EAB units, this special sticker, which is green, authorizes the taking of a buck deer in management units or portions of deer management units included in the Disease Eradication and Herd Reduction Zone during the deer archery and firearm hunts when EAB regulations are in effect (Oct. 27–Nov. 18). A special CWD buck authorization sticker may be issued to an individual for each antlerless deer they harvest and register in Disease Eradication Zone or Herd Reduction Zone. Each antlerless deer registered in the Disease Eradication and Herd Reduction Zones may only be used for authorization to kill one buck deer or to earn one special CWD buck authorization sticker. *This authorization sticker:*

1. will be issued free of charge upon registering an antlerless deer during any CWD seasons or for an antlerless deer that is not accompanying a buck deer as authorization for the buck in the Disease Eradication and Herd Reduction Zones.
2. is only required during the CWD EAB hunt (Oct. 27–Nov. 18).
3. may only be used by the hunter who registered the antlerless deer to secure the buck authorization sticker (group hunting rules apply see pages 14-15).

### Unlimited Either-Sex Seasons and Tagging Instructions

Unlimited either-sex regulations are in effect for the DEZ and the HRZ during the following dates:

Archery: Sept. 17 – Oct. 26 & Nov. 19 – Jan. 3  
Gun: Nov. 19 – Jan. 3

Any of the following tags may be used by a hunter in the DEZ or HRZ to tag a deer of either sex:

- Gun Deer Carcass Tag
- Archery Deer Carcass Tag
- Any Antlerless Deer Carcass Tag
- CWD Deer Carcass Tag

### Unlimited Earn-a-Buck Seasons and Tagging Instructions

Unlimited Earn-a-Buck regulations are in effect for the DEZ and the HRZ during the following dates:

#### DEZ

Archery: Oct. 27 – Nov. 18  
Gun: Oct. 27 – Nov. 13

#### HRZ

Archery: Oct. 27 – Nov. 18  
Gun: Oct. 27 – Oct. 30

*continued*

## Unlimited Earn-a-Buck Seasons and Tagging Instructions *continued*

Any of the following tags may be used by a hunter in the CWD DEZ or HRZ to tag an ANTLERLESS DEER:

- Gun Deer Carcass Tag
- Archery Deer Carcass Tag
- Any Antlerless Deer Carcass Tag
- CWD Deer Carcass Tag

Any of the following tags may be used by a hunter in the CWD DEZ or HRZ to tag a BUCK, IF a buck authorization sticker\* with the hunter's customer ID number is affixed to the back of the carcass tag, OR an unregistered antlerless deer has been legally harvested and tagged prior to the harvest of the buck, and the antlerless deer accompanies the buck until both are registered:

- Gun Deer Carcass Tag
- Archery Deer Carcass Tag
- Any Antlerless Deer Carcass Tag
- CWD Deer Carcass Tag

\* **Note:** A buck authorization sticker will be issued with every antlerless deer registered in the CWD DEZ or HRZ, unless the antlerless deer is used to authorize a buck at the time of registration during the EAB portion of the season.

### CWD Deer Registration

1. Any deer harvested in the **Disease Eradication Zone** shall be registered at registration stations designated by the department ***within this zone*** no later than 5:00 p.m. on the day after it was killed.
2. Any deer harvested in the **Herd Reduction Zone** shall be registered in the unit of kill or adjacent unit of kill within the Herd Reduction Zone or Disease Eradication Zone at registration stations designated by the department no later than 5:00 p.m. on the day after it was killed. A list of authorized stations will be available at DNR service centers.

**Note:**

1. **The DNR is encouraging hunters to register their deer on the day it is harvested to assure the quality of any tissue samples taken by the department for testing.**
2. The carcass and registration tags must remain attached to the deer, but may be removed from the carcass at the time of butchering. The person who killed or obtained the deer shall retain all tags until the meat is consumed.
3. Deer must be kept intact, except for field dressing and skinning, prior to registration. The lower legs, up to the tarsus joint ("ankle or hock") on the hind legs and up to the carpus joint ("wrist or knee") on the front legs, may also be removed. Exemption: Deer may be skinned and quartered by persons holding a Class A or B Disabled Permit. If the skin or legs are removed prior to registration, they must be kept with the carcass until after the deer is registered.
4. **Any part of any deer may be collected or sampled by the department for disease testing purposes prior to registration. If requested, you must allow the department to collect a sample for disease testing. Arrangements can be made for deer that are intended to be mounted.**

### CWD Zone Buck Deer Carcass Transportation

From Oct. 27–Nov. 18, during the EAB portion of the CWD season, a buck deer may not be transported within the DEZ or HRZ unless tagged with a carcass tag with a buck authorization sticker attached or it is accompanied by an antlerless deer lawfully killed in the DEZ or HRZ and each deer is properly tagged. (See above for details.)

## CWD Zone Buck Deer Carcass Transportation *continued*

**Note:** Although the department does not restrict deer carcass movement once a deer has been registered, we recommend that only the following parts of deer be transported from the Disease Eradication Zone:

- Meat cut and wrapped (either commercially or privately).
- Quarters or other portions of meat with no part of the spinal column or head attached.
- Meat that has been boned out.
- Hides and capes with no part of the head or skull attached.
- Clean (no meat or brain tissue attached) skull plates with antlers attached.
- Antlers with no meat or tissue attached or finished taxidermied heads.
- If entire deer are removed from these zones, unused parts should be landfilled.

## CWD Zone State Park Deer Hunting Permits

No person may hunt deer during the CWD hunts listed on page 65 in the following state parks, without first obtaining a state park deer hunting permit/property map identifying those areas closed to deer hunting within the park properties.

- |                                |                                     |
|--------------------------------|-------------------------------------|
| 1. Blue Mound State Park (70D) | 7. Tower Hill State Park            |
| 2. Belmont Mound State Park    | 8. Governor Dodge State Park (70C)  |
| 3. Cadiz Springs State Park    | 9. Mirror Lake State Park           |
| 4. Devil's Lake State Park     | 10. Natural Bridge State Park (70F) |
| 5. Rocky Arbor State Park      | 11. Yellowstone State Park (75B)    |
| 6. New Glarus Woods State Park |                                     |

**Note:** Permits and property maps will be available at the state park office and department service centers within the CWD zones. Vehicle Admission Stickers are still required. Check with the State Park office for details about all other park rules and camping information.

## Additional regulations affected by CWD hunts

1. **Night Hunting:** Coyote, fox, raccoon and unprotected species may be hunted **without** hunting hour restrictions in CWD Units. This includes the dates of the firearm and shotgun hunts in the Disease Eradication and Herd Reduction Zone units listed in the tables starting on page 60.
2. **Possession of rifles during CWD Shotgun Hunts:** It is unlawful to possess a rifle larger than .22 caliber rimfire unless unloaded and cased during the Herd Reduction Zone hunts in areas where rifles are prohibited for the hunting of deer. (See page 52).
3. **Group Hunting:** It is illegal to kill game for another person **EXCEPT** that during a deer firearm hunt, any member of a group deer hunting party may kill a deer for another member of the party *if they are all licensed or permitted and hunting with firearms*. There are additional requirements that must also be met to group hunt for deer. (See pages 14–15).

## CWD Landowner Permit Information (only valid in the DEZ)

Disease Eradication Zone (DEZ) Landowner Permits and DEZ Hunter Permits enable participating hunters to hunt deer on the landowner's property without the need to purchase a regular archery or gun deer license. Additionally, DEZ Landowner Permits and DEZ Hunter Permits are not required during deer hunting seasons if a hunter has obtained a deer hunting license and carcass tag.

*continued*

## **CWD Landowner Permit Information (only valid in the DEZ) *continued***

A DEZ Landowner Permit is required to allow others to hunt on the landowner's property without purchasing a deer license. Those who wish to hunt on the landowner's property without a deer license must purchase the \$2 DEZ Hunter Permit.

### ***Eligibility***

- Landowners owning at least 5 contiguous acres, all within a DEZ (see map on page 59) may, under this department issued permit, kill deer on lands under their ownership. Only one landowner may obtain a permit for land owned within a DEZ.
- Owners of multiple separate parcels will only receive one permit (one permit per DNR Customer Identification Number).
- Persons other than the landowner may assist as a participant in the hunting of deer on the land for which the permit is valid.
- All participants shall be selected by the landowner.
- All participants shall possess written approval, via the landowner authorization form, from the landowner and a DEZ hunter permit.

### ***Permits***

**DEZ Landowner Permit: \$2**

**DEZ Hunter Permit: \$2**

- Both permits may be obtained at any license sales location beginning September 1, 2005, (these permits will not be available via the Internet or over the phone).
- Those landowners not intending to hunt, but who wish to allow others to hunt on their property may obtain a permit with no hunting authority and no Either Sex Carcass Tag for no charge at any DNR Service Center or may request a free permit by calling 1-877-WISC-CWD.
- Permits issued in 2005 will be valid beginning on September 17 and will expire on March 31, 2006.
- Permits may be used for either the archery or gun season. Permit holders may use archery equipment from September 17-March 31 and may use firearms from October 27-November 13 and November 18-March 31.
- Rifles legal for hunting deer (see page 12) may be used in the Disease Eradication Zone by landowners and participants that have been authorized by the landowner.
- Landowners will be issued a CWD Landowner Permit/Backtag and one either-sex carcass tag for their own personal use during any season on the property that they own in the DEZ. This either-sex carcass tag may not be transferred to or possessed by anyone except the landowner to whom it was issued, and is not valid outside of the DEZ or on land owned by someone else.
- Group hunting rules apply (see page 14-15).
- Hunters wishing to hunt under the authority of a DEZ Landowner Permit will be issued a DEZ Hunter Permit/Backtag for their own use and two landowner authorization forms. In order to be valid, the authorization form must be signed by the landowner of the land that is hunted and include the DEZ Landowner Permit/Backtag number. A hunter must receive separate authorizations from the landowner of each property that they intend to hunt.
- Landowners may not charge any form of a fee to a participant who is hunting under the authorization of a DEZ Landowner/Hunter Permit.
- Hunters may obtain additional landowner authorization forms if they wish to hunt on more than two landowner properties at any ALIS vendor for free.

## CWD Landowner Permit Information (only valid in the DEZ) *continued*

### **CWD Landowner Permit Regulations**

#### **Landowners and participants shall:**

- Meet the requirements pertaining to hunter safety and age. Persons born on or after January 1, 1973, must be able to provide proof of successful completion of a hunter education course, basic training in the U.S. Armed Forces, Reserves or National Guard. No person less than 12 years old may hunt under the authority of a landowners permit.
- Comply with shooting hours listed on page 68.
- Comply at all times when hunting with the blaze orange clothing regulations on page 12.
- Register deer taken in accordance with the procedures designated on page 54.
- Immediately validate and attach the carcass tag as described on page 52.
- Display their back tag while hunting under the authority of a DEZ Landowner Permit.

**Note:** Landowners not meeting the above criteria should contact their local DNR office to obtain landowners permits for eligible participants.

#### **Additional Regulations:**

- During a DEZ hunting season (Sept. 17 – Jan. 3), Earn-a-Buck restrictions only apply from Oct. 27 – Nov. 18, when a hunter must harvest or tag an antlerless deer before harvesting and tagging a buck (see pages 53 & 54).
- During the DEZ either sex seasons (Sept. 17 - Oct. 26 & Nov. 19 – Jan. 3) and after the established Disease Eradication Zone hunting season (Jan. 4 – March 31), both antlerless and buck deer may be harvested (without the Earn-a-Buck requirement under a DEZ Landowner or Hunter Permit).
- Landowners may fill their one free “CWD Landowner Either-Sex Tag” without the need to harvest an antlerless deer first, from Oct. 27–Nov. 18.
- Antlerless deer harvested under the authority of a DEZ Landowner Permit may be used to earn a CWD buck permit for the authority to harvest a buck deer during the EAB portion of the CWD season.
- Carcasses shall be disposed of as directed by the department. Any part of any deer harvested may be collected by the department for disease testing purposes.
- Albino and white deer may be harvested and possessed in the DEZ under the authority of a DEZ Landowner Permit.

**What should I do if I observe or harvest a deer that I suspect might have CWD?** Call the local DNR office or the CWD Information Line (1-877-947-2293) right away. The DNR will make every effort to collect samples from the possibly infected deer for CWD testing.

If you observe a deer that appears to be sick and the season is open and you have a valid tag for a deer, please shoot and tag the deer. Then contact your local DNR office, wildlife manager or warden to make arrangements to submit the entire deer for testing as soon as possible. You will then be issued a free replacement tag for the tag used on the suspect deer.

## Safe Handling of Deer

Chronic wasting disease has been known to occur in deer and elk in western states for decades. In spite of ongoing surveillance for similar diseases in humans, there has never been an instance of people contracting a CWD-related disease from butchering or eating venison.

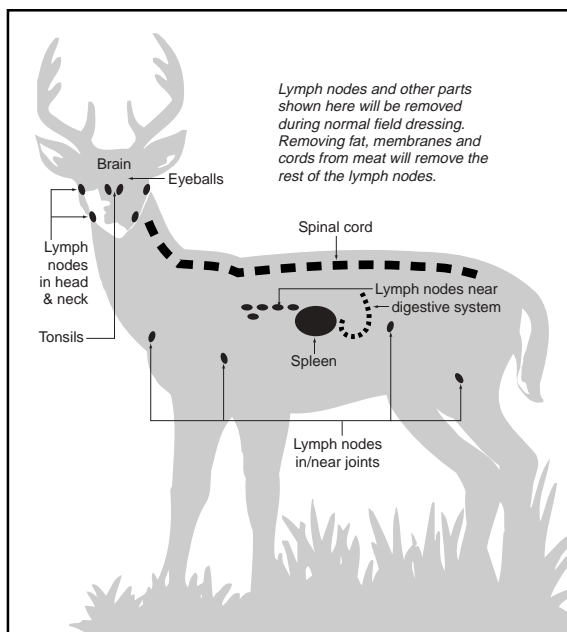

Experts suggest simple precautions that hunters field dressing deer and processors should take when handling deer in areas where CWD is found:

### General Precautions

- Do not eat the eyes, brain, spinal cord, spleen, tonsils or lymph nodes of any deer.
- Do not eat any part of a deer that appears abnormal.
- If your deer is sampled for CWD testing, wait for test results before eating meat.

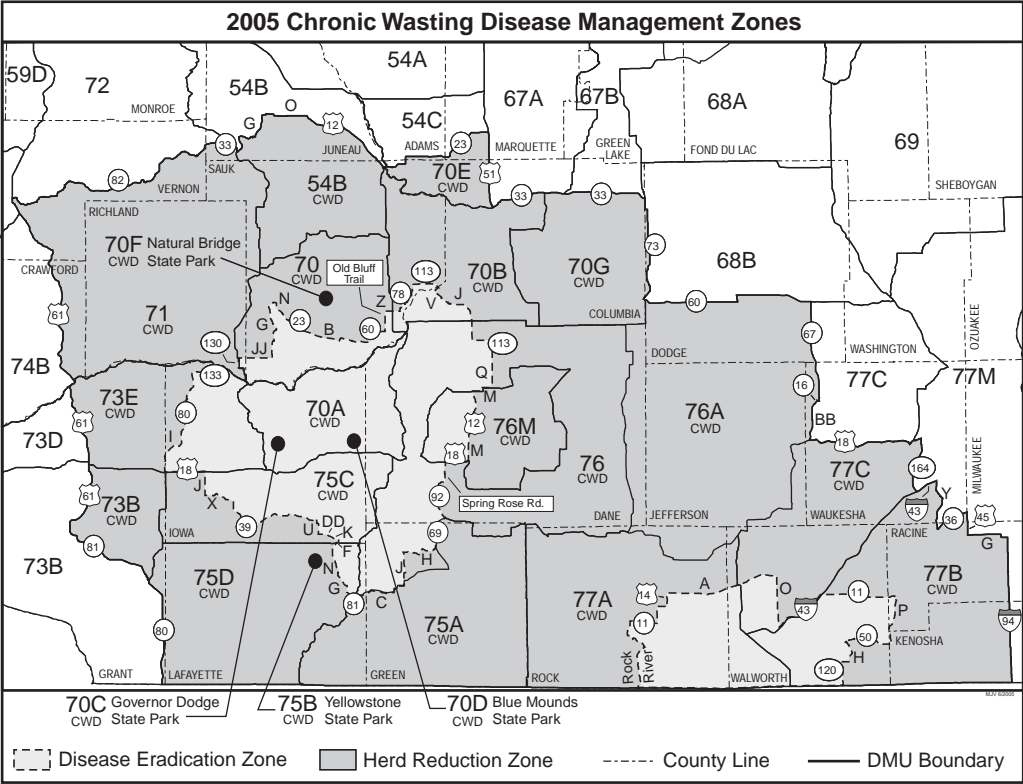

### Hunters

- **Wear rubber or latex gloves** when field dressing carcasses.
- **Bone out the meat** from your animal.
- **Remove** all internal organs.
- **Minimize the handling** of brain, spinal cord, spleen and lymph nodes (lumps of tissue next to organs or in fat).
- **Do not use** household knives or utensils.
- **Use equipment dedicated** to field dressing only.
- **Clean knives and equipment** of residue and sanitize with household bleach. Use a solution of equal parts chlorine bleach and water. Wipe down countertops and let them dry. Soak items like knives one hour. When through, dilute the solution further and dump it down a drain.
- **Request that your animal be processed individually** and not combined with meat from other animals.
- **Avoid use of saws.** Do not cut through spine or skull except to remove the head. Use a knife designated only for this purpose.

2005 CWD Zones

## 8 CWD Deer Hunting Seasons and Harvest Limits

Unit	Zone	Archery		Gun	
		Dates	Harvest Limit	Dates	Harvest Limit
54B CWD	HRZ	Sept. 17 - Oct. 26 & Nov. 19 - Jan. 3	<b>Either-Sex</b> - One deer of either sex per unused deer carcass tag.	Oct. 27 - Oct. 30	<b>EAB</b> - One antlerless deer per carcass tag. In addition, one buck deer may be taken if an antlerless deer is first harvested.
		Oct. 27 - Nov. 17	<b>EAB</b> - One antlerless deer per carcass tag. In addition, one buck deer may be taken if an antlerless deer is first harvested.	Nov. 19 - Jan. 3	<b>Either-Sex</b> - One deer of either sex per unused deer carcass tag.
